

Student Feedback on Advance Programmed Learning System (APLS): Economics

*The **APLS** website is really enjoyable and the web interface is a welcome change of pace at this stage in the program. It really makes for an interesting and sometimes comical (with the use of the hot fudge sundae example over and over) read.*

Drew

*I enjoyed **APLS** and the unconventional and fun stories used to teach us about economics... I think they considerably helped the learning & retention process and made me look forward to "what would happen next" each week... :)*

Peter

*Economics is one class that I feel like my undergraduate experience did not properly prepare me for and I have learned a lot from this class. I really enjoyed the **APLS** and the everyday examples that were used to explain economic concepts.*

Sara B.

***APLS** provided an engaging and humorous learning experience on the subject of economics. The lessons were excellent and the material was very well organized.*

I hope you won't be offended when I state that I enjoyed this class far more than I expected. I also find that a greater understanding of economics has a profound effect on one's perspective of life and real world events. This is one of the classes where knowledge gained produces daily benefits. I would say that is a good capital investment.

Amanda Barbera

*This economics course with **APLS** has been the most insightful class throughout my Master's program so far.*

Misty

*I really enjoyed the lessons in **APLS** and the way the authors utilize everyday language to get the important information across.*

Seth Davis

***APLS** is wonderful! Never before have I laughed so hard while reading economics!*

Erin Bond-Haney

*The explanations in **APLS** are very detailed, and examples are easy to understand.*
