List of Figures, xiii

Preface, xv

About the Authors, xvi

Chapter 1 → The Role of the General Aviation Service Center or “Fixed-Base Operator” in the National Aviation System, 1

Objectives, 1

Introduction, 1

Terminology, 1

Scope of Book, 2

Aviation’s Early Economic History, 2

Aviation Pioneers and Economic Milestones, 2

The Jet Engine: New Horizons, 3

Rotorcraft: New Functions, 3

Tiltrotor, 4

The Full Circle: Ultralights and Homebuilts, 4

Market Changes of Recent Decades and Their Implications for Aviation, 4

1990s Onward—New Wealth, 4

Security and Terrorism, 4

The World Wide Web, 4

Globalization of the Market, 5

Airline Deregulation, 5

General Aviation Revitalization Act of 1994 (GARA), 5

The “Revenue Diversion” Issue, 6

Threat of Airport Closures, 6

Airport Improvement Funding, 7

Fractional Aircraft Ownership, 7

NASA’s Involvement in General Aviation, 7

Transportation Security Administration, 7

Revolution in Avionics Technology, 7

Components of the Modern Aviation Industry, 8

Summary, 8

Pilots, 8

Other Aviation Support Personnel, 8

The Airport System, 9

The Air Navigation System, 9

Aviation Manufacturers, 10

Scheduled Air Carriers, 10

General Aviation, 10

Aviation Industry Groups, 11

Aviation Regulation, 14

Introduction, 14

Federal Aviation Administration (FAA), 14

National Transport Safety Board (NTSB), 15

Transportation Security Administration (TSA), 15

Fixed-Base Operators, 15

Fixed-Base Operators: Their Role, 15

Scale and Prospects of the Industry, 16

Airport Management, 16

FBO Industry Trends and Issues, 16

Maturity and Professionalism, 16

Public Awareness, 17

Technical Issues, 18

Conclusion, 18

Summary, 19

Discussion Topics, 19

Endnotes, 19

Chapter 2 → Management Functions, 21

Objectives, 21

Introduction, 21

The Four Traditional Functions of Management, 21

Common Managerial Errors and How to Address Them, 22

1. Failure to Anticipate Industry Trends, 22
2. Lack of Priorities, 23
3. Indecisiveness and Lack of Systems, 23
4. Poor Time Management, 23
5. Poor Communication Skills, 23
6. Lack of Personal Accountability and Ethics, 23
7. Failure to Develop, Train, and Acknowledge People, 23
8. Failure to Support Company Policy in Public, 24
9. Failure to Acknowledge and Accommodate People's Workstyles, 24
10. Failure to Focus on Profit, 24
11. Failure to Recognize the Needs People Fulfill by Working, 24
12. Failure to Establish and Adhere to Standards, 24

Planning and Organizing, 24

- The Need for a Business Plan, 24
- Business Plan Outline, 25

Directing, Coordinating, and Controlling, 29

- Managing, Versus Doing, 29
- Style of Problem-Solving and Delegation, 30
- Leadership Styles, 30
- Objectives of Delegation, 31
- Managerial Control, 31
- Choosing the Areas to Delegate, 32
- Dos and Don'ts of Delegation, 32

The Decision-Making Process, 32

- Decision-Making Tools, 34
- Decide Something!, 35

Time Management, 35

- Sources of Time-Management Problems, 35
- Time Management Strategies, 35

Business Ethics, 37

Summary, 38

Discussion Topics, 38

Endnotes, 39

Chapter 3 → Marketing, 41

Objectives, 41

Introduction, 41

- The Need for Marketing in Aviation, 41
- Marketing Orientation, 42

Definition of Marketing, 42

- Natural Segmentation of Aviation Markets, 43
- Market Research, 43
- The Nature of Aviation Market Research, 44

National Trends That May Affect General

Aviation, 44

- Introduction, 44
- Terrorism and Its Aftermath, 44
- Fractional Aircraft Ownership, 44
- Encouraging New Pilots, 46
- Sport Pilot Certificate, 46
- Airport Closures, 46
- Technology, 46
- Tort Reform, 47

Sources of Aviation Forecasts and Market

Projections, 47

Understanding the Local Aviation Market, 53

- Forecasting Techniques and the Individual General Aviation Business, 53
- Customer Needs and Identification of New Prospects, 55

Product and Service Definition, 56

- Total Product, 56
- Product Classification, 56
- The Competition, 57
- Market Niche, 57
- Price, 57
- Elasticity, 59
- Pricing Policy, 60
- Place, 61
- Distribution Systems, 61
- Promotion, 62
- Sales, 65
- Collecting, 66
- Marketing Controls, 66
- Marketing Plan, 66
- Contribution Analysis, 66
- Performance Evaluation, 66
- Quality Control, 67
- Budgeting, 67
- Information Systems, 67
- Integrated Marketing, 67

Marketing the Airport, 67

Summary, 68

Discussion Topics, 68

Endnotes, 69

Chapter 4 → Profits, Cash Flow, and Financing, 71

Objectives, 71

Introduction, 71

- Historic Context, 71
- Profit and Cash Flow Today, 71

Definitions of Profit, 72

- Reward for Effort, 72
- Reward for Risk, 72
- Return on Investment, 72
- Profit to Sales Ratio, 72

Profit Objectives, 72

- Profit Maximization, 72
- Satisfactory Profit, 73
- Non-Monetary Profit, 73
- Hobby/Business, 73
- Social Responsibility, 73

Profit Levels, 73

- FBO Reports, 73
- What Is Your Profit?, 74

Realizing Profit, 74

- Profit Orientation, 74
- Cost Control, 74
- Planning, 74
- Marketing Orientation, 75
- Information System Design, 75
- Records, 75
- Depreciation Practices, 75
- Inventory, 75
- Bad Debts, 75
- Managerial Decisions, 75
- Cash Flow, 75

Setting Your Cash Flow and Profit Goals, 76**Part 1—Planning for Positive Cash Flow, 76**

- Forecasting Sales and Revenues, 76
- Forecasting Expenses, 76
- Month-by-Month Cash Flow Analysis, 76
- Improving the Cash Position, 77

Part 2—Planning for Profits, 78

- Profit Objectives, 78
- Break-Even Analysis, 78
- Profitability Variations among Product Lines, 79
- Profit Centers, 80
- Profit and Loss Statement/Income Statement, 80
- Balance Sheet, 81

Part 3—Budgeting, 81

- Introduction, 81
- Aviation Budget Development, 81
- Steps in Budget Development, 81
- Budget Operation and Control, 91

Part 4—Other Considerations, 91

- Tax Planning, 91
- Competition, 92
- Retained Earnings, 92
- New Revenue Sources, 92

Financing, 93

- Types of Money, 93
- Sources of Money, 93

Credit Management, 94

- Nature and Reason for Credit, 94
- Creating a Credit Policy, 94
- Functions of Credit Management, 94
- Credit Process, 94
- Terms and Definitions, 99
- Cash or Credit Card?, 99

Summary, 99**Discussion Topics, 100****Endnotes, 100****Chapter 5 → Human Resources, 101****Objectives, 101****Pipeline Concept, 101**

- Control Points, 101
- Scope of Chapter 5, 102

Aviation Industry Trends, 103

- Labor Market Trends in Aviation, 103
- Industry Maturity and Professionalism, 106

Identifying Human Resource Needs, 106

- The Human Resources Component of the Business Plan, 106
- Permanent or Temporary Needs, 107
- Skills Required, 107
- Job Descriptions and Specifications, 107
- Special Activities, 107

Laws and Regulations, 109

- Introduction, 109
- Employment Discrimination, 111
- Workplace Safety, 112
- Workers Compensation: An Overview, 113
- Comparable Worth, 113
- Payroll Taxes and Deductions, 114
- Employee Access to Records and Fair Information Practices, 114

Recruiting Qualified Candidates, 114

- Industry Contacts, 114
- Recruiters, 114
- Employment Agencies, 115
- Colleges and Trade Schools, 115
- Advertising, 115

Selecting Employees, 116

- Preliminary Screening, 116
- The Application Form, 116
- The Interview, 116
- Testing and Investigation, 123

Background and References, 123	
The Physical Examination, 125	
The Job Offer, 125	
Orientation and Training, 127	
New Employees, 127	
Training 127	
Communicating, 129	
Basic Elements, 129	
Barriers to Effective Communication, 130	
Verbal and Non-Verbal Communications, 130	
Improving Communications, 131	
Motivating, 132	
Array of Needs, 132	
Needs Satisfied by Working, 133	
Creating a Motivating Environment, 133	
Leadership, 134	
Evaluating Employees, 134	
Promoting Employees, 139	
Compensation Systems, 139	
Job Evaluation, 139	
Fringe Benefits, 139	
Administration of the Total Compensation Plan, 140

Discussion Topics, 165	
Chapter 7 → Management Information Systems, 167	
Objectives, 167	
Introduction, 167	

Industry Changes—Franchises and Computerization, 167**System Purposes, 168**

- Financial Survival, 168
- Performance Monitoring and Improvement, 169
- Special Reports, 169
- Taxes and Legal Obligations, 170
- Checks on Reality, 170

System Processes, 170

- Integrated Flow, 170
- Requirements of an Effective System, 172
- First Steps, 172

Aviation Management Information Systems, 172

- Human Resources, 172
- Financial, 172
- Material, 172
- Aviation Operations, 176
- Legal and Tax Information, 176
- Market Information, 176
- Technological Information, 176

Analyzing Business Activity, 177

- General Procedure, 177
- Analyzing the Business as a Whole, 177
- Management Audit, 179

Analyzing Departmental Activity, 179

- Introduction, 179
- Net Income for the Period—Profit or Loss, 180
- Taking Action, 183

Records and Record-Keeping, 183

- Records Design, 184
- Correspondence, 184
- Records Management, 185
- Communications, 189
- Duplicating Information, 190

Aviation Accounting, 190

- Accounting Flow, 190
- Source Documents, 190
- Journals, 191
- General Ledger, 193
- Financial Statements, 193
- Accounting Activity Flow Chart, 193
- Accounting System, 193
- Profit Center Accounting, 194

Information System Tools, 196

- Introduction, 196
- Desktop Computers, 197
- Selecting the Right Functionality, 197
- Computer Selection Considerations, 198

- FBO Management Software Choices, 198
- Computer Service Bureaus, 200
- Other Devices, 200

Business Security, 200

- Confidentiality and Control of Information, 200
- Types of Losses, 200
- Methods of Combating Losses, 201

Summary, 201**Discussion Topics, 201****Endnote, 202****Chapter 8 → Operations: Flight Line and Front Desk, 203****Objectives, 203****Introduction, 203****Customer Service, 203****Staying Up to Date, 204**

- Technological Change, 204
- Facility Appearance, 204

Flight Line, 204

- Line Layout, 205
- Line Operations, 206
- Line Administration, 207
- Training Line Personnel, 211
- Service Array and Profitability, 212

Fueling, 212

- Trends in Use of Alternative Fuels, 213
- Self-Fueling, 213

Front Desk, 213

- Procedures, 214
- Staying Close to the Customer, 215
- Related Services, 215
- Flight Planning and Services, 215
- FAA Weather Services, 215
- Weather Information Systems, 216
- Other Pilot and Passenger Services, 216

Summary, 217**Discussion Topics, 217****Endnotes, 217****Chapter 9 → Flight Operations, 219****Objectives, 219****Introduction, 219**

- Types of Flights, 219
- Market Trends, 220
- System Issues Affecting Flight Operations, 220
- Choosing What Services to Offer, 226
- Organization, 226

Air Transportation, 226

- Benefits, 226
- Charter and Air Taxi, 227
- Aircraft Rental, 228
- Fractional Aircraft, 229
- Aircrew and Ferry Services, 229
- Air Cargo, 229
- Air Ambulance/Medical Evacuation, 230

Other Commercial Flight Operations, 231

- Aerial Patrol, 231
- Aerial Application, 231
- Aerial Advertising, 234
- Fish Spotting, 234
- Aerial Photography, 234

Flight Instruction, 234

- The Changing Market, 234
- Training Programs, 234
- Instruction Administration, 236
- Flight Instructors, 237
- Instructor Training, 238
- Freelance Instructors, 238
- Simulator/FTD Usage, 238

Sport and Recreational Flyers, 239

- Gliders and Sailplanes, 239
- Parachuting, 239
- Ultralights, 239
- Experimental and Home-Built Aircraft, 239
- Balloons, 239
- Rotorcraft, 240
- Sight-Seeing, 240

Aircraft Sales, 241

- New Aircraft, 241
- Used Aircraft, 241
- Brokerage, 241
- Demonstration Flights, 241

Flight Operations Manual, 242

Summary, 242

Discussion Topics, 242

Endnotes, 243

Chapter 10 → Aviation Maintenance, 245

Objectives, 245

Introduction, 245

- Goals of the Maintenance Shop, 245
- Changing Issues, 246

Maintenance Activity, 247

- Overview, 247
- Organization, 248
- Certification, 249

Personnel, 252

- Qualifications, 252
- Training, 253
- Certification, 254
- Capabilities and Limitations, 254
- Inspection Authorization, 254
- Repairmen, 254

Facilities and Equipment, 255

- Overview, 255
- Managerial Concerns, 255

Parts and Supplies, 256

- Inventory Control, 256

Quality Control, 259

- Training, 260
- Checklists, 260
- Inspection, 260
- Recognition, 260
- Balance, 260

Competition, 264

- Nonexclusive Rights, 264
- Referrals, 264
- Outsourcing, 264
- “Through-the-Fence” Operations, 264
- Tailgate, Shade Tree, and Gypsy Mechanics, 265
- Corporate and Other Self-Maintenance, 265

Administration, 265

- Flat-Rate Pricing, 266
- Computer-Assisted Maintenance, 272
- Profitability, 274
- Information, 274

Analysis, 274

- Control, 274
- Techniques, 274

Professional Maintenance Organizations, 275

Avionics Repair Stations, 275

Summary, 277

Discussion Topics, 277

Endnotes, 277

Chapter 11 → Safety, Security, and Liability, 279

Objectives, 279

Introduction, 279

- The Need for Risk Management Procedures, 279
- Interaction of Safety, Security, and Liability, 280

Risk Exposure, 280

- Normal Business Exposure, 280
- Aviation Risk Exposure, 280

Risk Reduction, 281

- Normal Risk Reduction, 281
- Aviation Risk Reduction, 283
- Aviation Safety and Security Regulations and Guidelines, 284
- Airport Risk Audit, 284
- Procedures Manual, 284
- Documentation, 285
- Inclement Weather, 285

Risk Transfer, 285

- Principles of Insurance, 285
- Insurance Regulations, 285
- The U.S. Insurance Market, 285
- Normal Business Insurance, 286
- Special Aviation Coverages, 289
- Aviation Tenant-Landlord Agreement, 291
- Selection of Aviation Insurance, 291
- Selection of Aviation Insurer, 292

Accident Policy and Procedures, 292

- Federal Reporting Requirements, 292
- State and Local Reporting Requirements, 294
- Aircraft Rescue and Firefighting (ARFF)
 - Procedures, 294
- Search and Rescue, 295

Aviation Security, 295

- Flight Security, 295

Summary, 297**Discussion Topics, 297****Endnotes, 297****Chapter 12 → Physical Facilities, 299****Objectives, 299****Introduction, 299****The Four Levels of Airport Service Business****Involvement in Physical Facilities, 299****The National Airport Hierarchy, 300**

- The Airport System, 300
- The Airspace System, 302
- Public Airport Organizational Structure, 302

The Airport's Wider Environment, 302

- Overview, 302
- How FAA Handles Aviation Noise, 303
- FAR Parts 150 and 161, 303

Facilities on the Airport, 304

- Introduction, 304
- The Airport Master Plan and ALP, 304
- Participation by Airport Businesses in Airport Policy and Planning, 305
- Private Airports, 305
- Airport Revenue Planning, 306

The FBO's Own Facilities, 306

- Data Collection, 306
- Planning a New Airport, 307
- Facility Expansion, 307
- Preventive Maintenance, 307
- Scheduled Replacement of Plant and Equipment, 307
- Zoning and Other Local Controls, 308
- Environmental Compliance, 308
- Leases, 308
- Competition with Other FBOs, 319

Threats to the General Aviation Physical System, 320

- Lack of Appreciation of GA's Role, 320
- Airspace Restrictions, 320
- Noise and Operating Restrictions, 321
- Airport Closures, 321
- Disappearance of Private Airports and Back Country Strips, 321
- Siting New and Expanded Facilities, 322
- Lack of Suitable Land Use Controls, 322
- Bird Strike Threat, 323
- Revenue Diversion, 323
- Inadequate General Aviation Funding, 323

New Initiatives and Opportunities, 325

- Noise Abatement Programs, 325
- Continuous Noise Abatement Strategy, 325
- Economic Benefits Studies, 325
- Airport Privatization Program, 326
- NASA Small Aircraft Program, 327
- Airport and Aviation System Planning, 327

Summary, 327**Endnotes, 327****Discussion Topics, 328****Index, 331**
