About the Author	xxiv

## PART 1

### *Plant Structure*

---

■ <b>CHAPTER 1</b>	
<i>Introduction to Plant Taxonomy</i>	<b>3</b>
<hr/>	
<b>Relationship of Taxonomy to Other Areas of Biology</b>	4
<b>Why Should You Study Taxonomy?</b>	4
<b>Basic Activities of Systematic Botany</b>	4
Cataloging	5
Identification	6
Classification	7
Data Gathering and Analysis	7
<b>What Must a Beginning Student in Taxonomy Accomplish?</b>	8
<b>References</b>	8
<b>Exercises</b>	9
<hr/>	
■ <b>CHAPTER 2</b>	
<i>Botanical Nomenclature</i>	<b>13</b>
<hr/>	
<b>Common Names</b>	13
<b>Scientific Names</b>	14
Names of Taxa above the Genus Level	15
Generic Names	16
Species Names	16

Names of Intraspecific Taxa	18
<b>Pronouncing Scientific Names</b>	18
<b>The International Code of Botanical Nomenclature</b>	19
<b>General Principles of Botanical Nomenclature</b>	19
<b>Naming a Newly Discovered Plant</b>	21
<b>Why Do Botanists Change Plant Names?</b>	22
Names and the PhyloCode	23
<b>References</b>	23
<b>Exercises</b>	25

---

## ■ CHAPTER 3

### *Taxonomic Evidence* 29

---

<b>Characters and Character States</b>	29
<b>Vegetative Terminology</b>	30
<b>Definitions of Selected Terms</b>	31
Life Span	31
Plant Habit	31
Plant Organs	31
Root Types (Fig. 3-1)	31
Stem Types (Fig. 3-1)	31
Stem Features (Fig. 3-2)	32
Leaf Parts (Fig. 3-2)	34
Leaf Complexity (Fig. 3-3)	34
Leaf Attachment (Fig 3-4)	35
Leaf Arrangement (Phyllotaxy) (Fig 3-5)	36
Leaf Venation (Fig. 3-6)	36
Leaf Blade Shape (Fig. 3-7)	36
Leaf Apices (Fig. 3-8)	37
Leaf Bases (Fig. 3-9)	38
Leaf Margins (Fig. 3-10)	39
Special Features (Fig 3-11)	40
Surface Features (Fig 3-12)	40
<b>Character Variation</b>	42
Distinguishing Inherited Variation Patterns from Environmentally Induced Variation	42
Determining the Usefulness of Particular Variables	43
Convergence and Parallelism	44
Description of Variation in Quantitative Characters	44
Graphical Depiction of Character Variation	45

Statistical Analysis of Character Variation	47
Coding Quantitative Morphological Data for Phylogenetic Analyses	50
<b>References</b>	50
<b>Exercises</b>	52

PART 2

## *Classification Systems*

---

■ <b>CHAPTER 4</b>	
<i>Systematic Methods and Classification</i>	65

---

<b>Classification Is a Living Process</b>	65
<b>Phylogenetic Classification</b>	65
<b>Phylogenetic Methodology</b>	66
<b>Phylogenetics Glossary</b>	71
<b>Phylogenetic vs. Traditional Classification</b>	73
<b>Phenetics</b>	75
<b>Other Methods to Reconstruct Phylogenies</b>	75
<b>Do We Believe the Phylogenetic Tree?</b>	77
<b>Phylogenetic Classification</b>	77
<b>References</b>	77
<b>Exercises</b>	81

---

■ <b>CHAPTER 5</b>	
<i>Floras, Manuals, and Botanical Descriptions: Tools for the Taxonomist</i>	83

---

<b>Construction of Keys</b>	84
<b>Use of Keys</b>	87
<b>Interactive Keys</b>	88
<b>Floras and Manuals</b>	88
Botanical Descriptions	89
Sample Treatments	90
Explanation of Sample Description	90
Online Resources	91
Selected List of North American Floras and Manuals	91
<b>References</b>	92
<b>Exercises</b>	95

---

■ <b>CHAPTER 6</b>	
<i>A Brief History of Classification</i>	97

---

<b>Artificial Classifications: From Theophrastus to Linnaeus</b>	97
<b>Classifications Based on Overall Similarities</b>	98
<b>Charles Darwin, Evolution, and Systematics</b>	99
<b>Numerical Phenetic Systematics</b>	100
<b>Traditional or Evolutionary Systematics</b>	102
Engler and Prantl System	103
Bessey's System	104
Hutchinson's System	106
Takhtajan's System	106
Cronquist's System	106
Thorne's System	109
Dahlgren's System	109
<b>Phylogenetic Classification</b>	117
<b>References</b>	120
<b>Exercises</b>	123

---

■ <b>CHAPTER 7</b>	
<i>Collecting and Preserving Plants for Study</i>	125

---

<b>The Ethics of Plant Collecting</b>	126
<b>Collecting Plants</b>	127
<b>Pressing Plants</b>	128
<b>Identification of Plant Specimens</b>	131
<b>Labeling Specimens</b>	131
<b>Final Stages of Processing Specimens</b>	132
<b>Biodiversity Informatics</b>	134
<b>References</b>	135
<b>Exercises</b>	137

PART 3  
*Plant Diversity*

---

■ CHAPTER 8	
<i>Survey of the Vascular Plants</i>	141
<hr/>	
<b>Organization of the Survey</b>	143
<b>Synoptic Keys vs. Identification Keys</b>	143
<b>Synoptic Key to the Major Taxa of Vascular Plants with Reference to Chapters in This Book</b>	144
<b>Tips for Learning Families</b>	146
<b>References</b>	149
<b>Exercises</b>	151
<hr/>	
■ CHAPTER 9	
<i>Lycopodiophyta and Monilophyta</i>	153
<hr/>	
<b>Life Cycles</b>	154
The Sporophyte Phase	154
The Gametophyte Phase	156
<b>Taxonomy</b>	156
<b>Synoptic Key to the Major Taxa of Living Pteridophytes</b>	157
<b><i>/Tracheophyta</i> (in part; <i>/Lignophyta</i> is presented in Chapters 10–15)</b>	158
<i>/Lycopodiophyta</i> (Phylum Lycophyta; plants with microphylls)	158
1. <i>/Lycopodiaceae</i>	158
2. <i>/Isoëtopsida</i>	158
<i>/Euphyllophyta</i> (plants with megaphylls, includes the <i>/Monilophyta</i> and <i>/Lignophyta</i> )	158
<i>/Monilophyta</i> (ferns and relatives; sister to the <i>/Lignophyta</i> )	158
1. <i>/Psilotaceae</i> (Class Psilotopsida)	158
2. <i>/Ophioglossales</i> (Class Psilotopsida)	160
3. <i>/Marattiales</i> (Class Marattiopsida)	160
4. <i>/Equisetum</i> (Class Equisetopsida)	160
5. <i>/Leptosporangiatae</i> (Class Polypodiopsida)	160
<b>References</b>	164
<b>Selaginellaceae</b>	166
Family Description	167
Family Notes	167
<b><i>/Equisetum</i></b>	168
Description	168
Notes	169

<b>Pteridaceae</b>	170
Family Description	170
Family Notes	171
<b>Dennstaedtiaceae</b>	172
Family Description	173
Family Notes	173
<b>Dryopteridaceae</b>	174
Family Description	175
Family Notes	175
<b>Polypodiaceae</b>	176
Family Description	177
Family Notes	177
<b>Exercises</b>	179

---

## ■ CHAPTER 10

### *Gymnosperms* 183

---

<b>Gymnosperm Life Cycles (Fig. 10-2)</b>	184
<b>Synoptic Key to the Orders of Living Gymnosperms</b>	188
<b>Families of /<i>Acrogymnospermae</i> (Gymnosperms)</b>	188
1. / <i>Cycadophyta</i> (Cycadales)	188
2. / <i>Ginkgo</i> (Ginkgoales)	188
3. / <i>Coniferae</i> (Coniferales)	188
4. / <i>Gnetophyta</i> (Gnetales)	190
<b>References</b>	190
<b>Cycadaceae and Zamiaceae</b>	192
Cycadaceae—Family Description	192
Zamiaceae—Family Description	193
Family Notes	193
<b>/Ginkgo</b>	195
Description	195
Notes	195
<b>/Pinaceae</b>	197
Family Description	198
Family Notes	198
<b>Cupressaceae [Including Taxodiaceae]</b>	199
Family Description	200
Family Notes	200
<b>Exercises</b>	201

<hr/>	
■ <b>CHAPTER 11</b>	
<i>Introduction to the Flowering Plants</i>	205
<hr/>	
<b>Origin and Relationships of Angiosperms</b>	205
<b>The Angiosperm Life Cycle</b>	206
<b>Survey of Flower and Fruit Terminology</b>	208
The Flower	209
The Perianth	210
The Androecium	212
The Gynoecium	213
Placentation	214
Ovary Position and Insertion Points	215
Nectaries	216
Inflorescences	216
<b>Key to Some Common Inflorescence Types</b>	218
Fruits	220
Outline of Common Types of Fruits	221
<b>References</b>	225
<b>Exercises</b>	227
<hr/>	
■ <b>CHAPTER 12</b>	
<i>Early Evolution of Flowering Plants: Basal Angiosperms, Magnoliids, and Basal Eudicots</i>	239
<hr/>	
<i>/Angiospermae (Phylum Magnoliophyta), /Apo-Angiospermae</i>	242
1. <i>/Amborella</i> (Order Amborellales)	242
2. <i>/Nymphaeales</i> (Order Nymphaeales)	242
3. <i>/Austrobaileyales</i> (Order Austrobaileyales)	243
<i>/Mesangiospermae (“core angiosperms”)</i>	243
<i>/Magnoliidae</i> (The Magnoliids)	243
4. Order Magnoliales	243
5. Order Laurales	243
6. Order Cannellales	244
7. Order Piperales	244
<i>/Chloranthaceae</i>	245
8. Order Chloranthales	245
<i>/Ceratophyllum</i>	245
9. Order Ceratophyllales	245

<b><i>/Eudicotyledoneae, /Tricolpatae (in part)</i></b>	245
10. <i>/Ranunculales</i> (Order Ranunculales)	245
11. <i>/Proteales</i> (Order Proteales)	246
12. <i>/Trochodendrales</i> (Order Trochodendrales)	247
13. <i>/Buxaceae</i> (Order Buxales)	247
14. <i>/Gunnerales</i> (Order Gunnerales)	247
<b>References</b>	248
<b>Nymphaeaceae</b>	250
Family Description	250
Family Notes	251
<b>Magnoliaceae</b>	252
Family Description	252
Family Notes	253
<b>Lauraceae</b>	254
Family Description	254
Family Notes	255
<b>Berberidaceae</b>	256
Family Description	256
Family Notes	257
<b>Ranunculaceae</b>	258
Family Description	258
Family Notes	259
<b>Papaveraceae</b>	260
Family Description	260
Family Notes	261
<b>Exercises</b>	263

---

## ■ CHAPTER 13

### *Rosids* 269

---

<b>Basal Rosids</b>	270
1. <i>/Dilleniaceae</i>	270
2. <i>/Saxifragales</i> (Order Saxifragales)	270
3. Order Vitales	272
<b><i>/Rosidae</i> (Subclass Rosidae)</b>	272
<i>/Fabidae</i> (Eurosid I)	272
4. Order Zygophyllales	272
5. Order Celastrales	272
6. Order Malpighiales	273

7. Order Oxalidales	275
8. Order Fabales	275
9. Order Rosales	276
10. Order Cucurbitales	277
11. Order Fagales	277
<i>/Crossosomatales</i> (Order Crossosomatales)	278
12. Order Crossosomatales	278
<i>/Geraniales</i> (Order Geraniales)	279
13. Order Geraniales	279
<i>/Myrtales</i> (Order Myrtales)	279
14. Order Myrtales	279
<i>/Malvidae</i> (Eurosid II)	280
15. Order Brassicales	280
16. Order Malvales	281
17. Order Sapindales	282
<b>References</b>	283
<b>Saxifragaceae</b>	285
Family Description	286
Family Notes	286
<b>Crassulaceae</b>	288
Family Description	288
Family Notes	289
<b>Grossulariaceae</b>	290
Family Description	290
Family Notes	291
<b>Hamamelidaceae</b>	292
Family Description	292
Family Notes	293
<b>Euphorbiaceae</b>	294
Family Description	295
Family Notes	295
<b>Clusiaceae (Guttiferae)</b>	297
Family Description	297
Family Notes	298
<b>Violaceae</b>	299
Family Description	299
Family Notes	300
<b>Salicaceae</b>	301
Family Description	301
Family Notes	302

<b>Fabaceae (Leguminosae)</b>	303
Family Description	303
Family Notes	304
<b>Rosaceae</b>	307
Family Description	307
Family Notes	308
<b>Rhamnaceae</b>	311
Family Description	311
Family Notes	312
<b>Moraceae</b>	313
Family Description	313
Family Notes	314
<b>Urticaceae</b>	316
Family Description	316
Family Notes	316
<b>Cucurbitaceae</b>	318
Family Description	319
Family Notes	319
<b>Fagaceae</b>	320
Family Description	320
Family Notes	321
<b>Betulaceae</b>	322
Family Description	323
Family Notes	323
<b>Geraniaceae</b>	325
Family Description	325
Family Notes	326
<b>Myrtaceae</b>	327
Family Description	327
Family Notes	328
<b>Onagraceae</b>	329
Family Description	329
Family Notes	330
<b>Brassicaceae (Cruciferae)</b>	331
Family Description	331
Family Notes	332
<b>Malvaceae</b>	333
Family Description	334
Family Notes	334

<b>Sapindaceae</b>	336
Family Description	336
Family Notes	337
<b>Rutaceae</b>	338
Family Description	338
Family Notes	339
<b>Anacardiaceae</b>	340
Family Description	340
Family Notes	341
<b>Exercises</b>	343

---

## ■ CHAPTER 14

### *Asterids* 361

---

<i>/Berberidopsidales</i>	361
1. Order Berberidopsidales	361
<i>/Santalales</i>	362
2. Order Santalales	362
3. Order Unknown	363
<i>/Caryophyllales</i>	363
4. Order Caryophyllales	363
<i>/Asteridae</i>	367
5. <i>/Cornales</i> (Order Cornales)	367
6. <i>/Ericales</i> (Order Ericales)	369
<i>/Gentianidae</i>	372
<i>/Garryidae</i>	372
7. <i>/Garryales</i>	372
<i>/Lamiidae</i>	372
8. Order Gentianales (APG)	372
9. Order Lamiales (APG notes Lamiales tree is highly provisional)	373
10. Order Solanales (APG)	377
<i>/Campanulidae</i>	378
<i>/Apiidae</i>	378
11. Order Escalloniales	378
12. Order Asterales	378
13. Order Paracryphiales	379
14. Order Dipsacales	379
15. Order Apiales	379
16. Order Bruniales	380

<i>/Aquifoliales</i>	380
17. Order Aquifoliales	380
<b>References</b>	380
<b>Caryophyllaceae</b>	383
Family Description	384
Family Notes	384
<b>Nyctaginaceae</b>	386
Family Description	386
Family Notes	387
<b>Chenopodiaceae</b>	388
Family Description	388
Family Notes	389
<b>Aizoaceae</b>	390
Family Description	391
Family Notes	391
<b>Portulacaceae</b>	392
Family Description	392
Family Notes	393
<b>Cactaceae</b>	394
Family Description	395
Family Notes	395
<b>Polygonaceae</b>	397
Family Description	398
Family Notes	398
<b>Ericaceae</b>	399
Family Description	400
Family Notes	400
<b>Polemoniaceae</b>	402
Family Description	402
Family Notes	402
<b>Primulaceae</b>	404
Family Description	404
Family Notes	405
<b>Rubiaceae</b>	406
Family Description	406
Family Notes	407

<b>Asclepiadaceae</b>	408
Family Description	408
Family Notes	409
<b>Boraginaceae</b>	410
Family Description	410
Family Notes	411
<b>Hydrophyllaceae</b>	412
Family Description	412
Family Notes	413
<b>Lamiaceae (Labiatae)</b>	414
Family Description	414
Family Notes	415
<b>Scrophulariaceae</b>	416
Family Description	416
Family Notes	417
<b>Solanaceae</b>	418
Family Description	418
Family Notes	419
<b>Asteraceae (Compositae)</b>	420
Family Description	420
Discussion of Composite Morphology	421
Variation in Floret and Head Structure	424
Economic Importance	425
Synopsis of the Subfamilies and Tribes of Asteraceae	425
Subfamily Barnadesioideae	425
Subfamily Mutisioideae	426
Subfamily Cichorioideae	426
Subfamily Asteroideae	427
<b>Campanulaceae</b>	431
Family Description	431
Family Notes	432
<b>Caprifoliaceae</b>	433
Family Description	434
Family Notes	434
<b>Apiaceae (Umbelliferae)</b>	435
Family Description	435
Family Notes	436
<b>Exercises</b>	437

<b><i>/Monocotyledoneae</i></b>	459
<i>/Acorus</i>	459
1. Order Acorales	459
<i>/Nartheciidae</i>	459
2. <i>/Alismatales</i> (Order Alismatales)	459
<i>/Petrosaviidae</i>	461
3. Order Petrosaviales	461
4. Order Dioscoreales	461
5. Order Pandanales (sister to Dioscoreales)	461
<i>/Liliales</i> (sister to <i>/Commelinidae</i> )	461
6. Order Liliales	461
7. Order Asparagales	462
<i>/Commelinidae</i> (sister to <i>/Liliales</i> )	462
8. Order Arecales	462
9. Order Poales	462
10. Order Commelinales	464
11. Order Zingiberales	464
<b>References</b>	466
<b>Araceae</b>	468
Family Description	468
Family Notes	469
<b>Alismataceae</b>	470
Family Description	470
Family Notes	471
<b>Liliaceae</b>	472
Family Description—sensu lato	473
Family Notes	473
<b>Orchidaceae</b>	478
Family Description	478
Family Notes	479
<b>Iridaceae</b>	481
Family Description	481
Family Notes	482
<b>Areaceae (Palmae)</b>	483
Family Description	484
Family Notes	484

<b>Bromeliaceae</b>	486
Family Description	487
Family Notes	487
<b>Juncaceae</b>	488
Family Description	489
Family Notes	489
<b>Cyperaceae</b>	490
Family Description	490
Family Notes	491
<b>Poaceae (Gramineae)</b>	492
Family Description	493
Family Notes	493
Grass Classification	495
Survey of Subfamilies and Tribes of the Poaceae	497
Subfamily Bambusoideae	497
Subfamily Oryzoideae	497
Subfamily Arundinoideae	497
Subfamily Chloridoideae (Eragrostoideae)	498
Subfamily Pooideae (Festucoideae)	498
Subfamily Panicoideae	499
Economic Importance of the Poaceae	499
Commelinaceae	500
Family Description	500
Family Notes	501
<b>Exercises</b>	503

### PART 3

## *Documenting Plant Diversity*

---

<b>■ CHAPTER 16</b>	
<i>Experimental Plant Systematics</i>	515
<hr/>	
<b>Purposes of Experimental Taxonomy</b>	516
<b>Biosystematics</b>	516
<b>Differentiating Environmental Influences from Inheritance</b>	517
<b>Studies of Gene Exchange, Speciation, and Hybridization</b>	517
<b>Problems with the Biological Species Concept</b>	518
<b>Cytogenetic Studies</b>	518
<b>Hybrid Speciation</b>	520
